About G Medical Innovations Holdings Ltd.

G Medical Innovations Holdings Ltd. is an early commercial stage healthcare company engaged in the development of next generation mHealth and telehealth solutions and monitoring service platforms. The Company's solutions and services can empower consumers, patients and providers to better monitor, manage and improve clinical and personal health outcomes, especially for those who suffer from cardiovascular disease, pulmonary disease and diabetes. The Company's current product lines consist of its Prizma medical device, a clinical grade device that can transform almost any smartphone into a medical monitoring device enabling both healthcare providers and individuals to monitor, manage and share a wide range of vital signs and biometric indicators; its Extended Holter Patch System, a multi-channel patient-worn biosensor that captures electrocardiogram data continuously, including its QT Syndrome Prolongation Detection Capabilities Patch. In addition, the Company is developing its Wireless Vital Signs Monitoring System, which is expected to provide full, continuous and real time monitoring of a wide range of vital signs and biometrics. Its monitoring services include Independent Diagnostic Testing Facility and private monitoring services.
